PROJECT

Project Title: _____

Project Overview

Please include a brief background and description of the problem

Project Objectives

Please include measurable performance indicators (increase capacity, improve quality, etc.)

Preferred Skills (optional)

Please indicate the need for a student with the knowledge of a particular software

DONATIONS

Sponsorship of an ISE Senior Design Project involves providing a problem description, identifying an appropriate scope of work, mentoring a team during the semester including providing feedback on their performance as well as financial support to the department.

Your team will generally consist of 3-5 students who are committed to 10-12 hours per week dedicated to your project over the course of the academic semester. The team is responsible for providing progress reports that detail their work on the project from inception to conclusion.

Each sponsor is expected to provide a tax-deductible donation to the ISE Senior Design Program account which is managed by the NCSU College of Engineering Foundation. These funds cover costs incurred by the team for supplies, materials, use of NC State equipment and travel. Costs for local projects (Wake, Durham and Orange Counties) are \$3,000. Projects outside of the area are \$3,500. Some Non-Profit organizations and State Government entities are eligible for complementary project support. No goods, services, or deliverables (including intellectual property) have been offered, nor are they expected, in return for this contribution

Contributions can be made online at go.ncsu.edu/sdsponsor or coordinated with Dr. Reynolds.
